

ECA Student Success and Wellness Plan

ECA has a contract with The Ohio State University School of Social Work. ECA utilizes the funds from the Student Success and Wellness fund to pay in part for this contract. Funds will also be used to allow the Guidance Counselor to work additional after school hours and Fridays (school is in session Monday – Thursday) to coordinate social workers from The Ohio State University School of Social Work, Goodwill, and our school nurse to better serve all populations in our school.

This allows ECA to have access to a one-stop shop for students and their families to receive counseling, health screenings, medical assistance, access to tutoring, mentoring, social-emotional health services. Homeless students are aided with resources for housing, clothing and food; Special Education students and families are helped with the same items as above, but also assistance in obtaining any type of medical needs—screenings and counseling or any items or services that might aid them in their classroom setting.

The social workers also aid in trying to help eliminate barriers for attendance, truancy, child care, etc.
